≡ WORK EXPERIENCE

FREELANCE DIGITAL LEARNING CONSULTANT

2020 - today

Nutshell Learning

I design, produce, and deliver engaging learning experiences to meet customer needs and objectives. This includes instructional design, course production, and creation of the learning path on the LMS platform.

- Designed training paths, branching scenarios and e-learning modules for large audiences (incl. compliance training for 15 000 staff members).

LEARNING ACADEMY PLATFORM MANAGER

02.22 - 05.23

United Nations Global Compact

I maintained and updated the UNGC's learning platform building capacity on sustainability topics for over 20 000 companies, ensuring a smooth learning experience.

- Ensured technical maintenance: upload of new courses, content curation, learner management, course evaluations, platform localization
- Implemented creative solutions for platform improvements (new pages, promotion resources, interoperability) and capacity-building

APPLICATIONS TRAINER

07.18 - 12.19

TECHNO-PEDAGOGICAL ENGINEER

07.16 - 06.19

International Committee of the Red Cross

I managed learning initiatives liaising with internal experts and external providers, and produced online learning courses to build internal capacity and support the digital transformation of the organisation.

- Managed the design and development of trainings in various formats: e-learning, blended, mobile app, face-to-face
- Produced user-friendly learning resources to facilitate colleagues' adoption and use of new digital tools
- Delivered training of trainers and regular internal workshops on training practices and digital tools

E-LEARNING OFFICER

09.14 - 06.16

United Nations Institute for Training and Research (UNITAR)

I developed, promoted and evaluated online courses, and helped organize a 3-day international forum with high profile speakers.

- Facilitated, translated, and evaluated eLearning courses on Moodle
